FOREWORD

We cannot overemphasize the importance of reading this instruction manual and referring to it whenever questions or problems arise. In this manual you will find the answers to **all** your issuance questions. We suggest you read it **prior to** issuing your first license. If you cannot find the information you need, quickly refer to the back of the manual where you will find the appropriate contact person(s) and phone number(s). You can contact us any weekday (except holidays) for assistance.

ABSTRACTS: Abstracts of the Fish & Wildlife Laws of Massachusetts must be issued with each license sold. Please be sure that every license purchaser receives one and only one abstract per license purchased. Abstracts are fairly expensive to print and we can only print them once per year, so their supply is limited. The allotment of abstracts you received with your licenses is based upon issuing **one** abstract **per license or stamp.**

SUPPLIES: If you are running low on licenses, stamps or remittance forms, either write or phone the Division of Fisheries & Wildlife, Leverett Saltonstall Building, 100 Cambridge Street, Boston, MA 02202 (617)727-3151) or contact your local District Wildlife Manager, whose name, address and phone number may be found in the abstracts. Because we have printed enough abstracts to ensure that there are enough to accompany each license printed, you will automatically receive more abstracts whenever you order more license or stamps.

WILDLANDS CONSERVATION STAMP: State Law dictates that no one may hunt, fish or trap in Massachusetts without first having obtained a Wildlands Conservation Stamp for that year. The revenue received from the sales of these stamps, by State law, "may only be used for the acquisition and maintenance of wildlands which shall forever remain open to hunting, fishing and trapping". It is **not** a license fee increase and the money goes into its own, dedicated account.

NEW AGENTS: Each year new agents, without preliminary help, advice or training, are authorized to issue licenses (although we do try to provide training seminars for large vendors). Also, common questions continue to arise. The purpose of this section is to address these problems. To circumvent the "trial & error" method, particularly for new agents, the following is a listing of a few basic instructions which should be helpful:

1. License form:

A. The Fishing/Trapping license book is condensed into a three (3) panel form with no deer tag to detach and destroy!!! Panel 3 is the "Massachusetts Wildlife" subscription order blank. This is merely for the applicant's convenience and there is no need to concern yourself with this panel. Simply leave it attached to the license and issue it with the duplicate certificate. DO NOT accept these or the monies in payment of same. Applicants should be instructed to forward them, with payment, to the address shown at the bottom of that panel.

There is a check-off box for the Wildlands Conservation Stamp on the front of the license, with the stamp imprint on the reverse side of the first panel. The stamp fee ($5) is to be charged with all FIRST resident licenses and ALL non-resident licenses issued for that calendar year regardless of whether or not the applicant has held a license in a previous calendar year. (See figs. 1 & 2 on pages preceding Table of Contents).

B. The Hunting/Sporting license book is a five (5) panel form, with panel 3 being the deer harvest tag and 4 & 5 being the Antlerless Deer and Turkey hunting permit applications respectively. The only time you would have to concern yourself with these panels would be when issuing a class **H6** or **H7** license in which case you must **detach and destroy** these three panels!!! This license also has the check-off box and imprint for the Wildlands Conservation Stamp. As with the Fishing/Trapping licenses, the stamp fee must be charged with all FIRST resident licenses and ALL non-resident licenses issued for that

calendar year, regardless of whether or not the applicant has held a license in a previous calendar year (See figs. 3 & 4). All other hunting and sporting license classes would receive these panels.

C. The duplicate certificate copy (part 2) contains all the information from the original license, enabling the sportsman to go to any licensing agent in order to get a duplicate if the original license is lost or stolen. Also, any agent can issue a duplicate license regardless of where it was purchased. Please note: On the Hunting/Sporting license form, (part 2) "Duplicate Certificate" also contains the "Massachusetts Wildlife" subscription blank. This is only for the applicant's convenience and there is no need to concern yourself with this form. Simply give it to the applicant with the license. DO NOT accept these or money in payment of them. Applicants should be instructed to follow the instructions on the bottom of that panel.

2. When issuing a license, be sure to apply enough pressure so that the information is carried clearly through all carbons to the fourth copy.

3. It is advisable to remove carbons after the issuance of each license to reduce transfer of carbon residue.

4. As each license is issued, the original and duplicate certificate (parts 1 & 2) are detached and given to the purchaser. Part 3 SHOULD **NOT** BE REMOVED FROM THE LICENSE BOOK UNDER ANY CIRCUMSTANCES. This particular copy is the permanent record of issuance to be sent intact at the close of the year to the Division of Fisheries & Wildlife office in Westboro for audit.

5. We recommend that you wrap an elastic band around the front cover of your license book, and as licenses are sold, part 3 can be flipped over and slid under the elastic so that the book can be opened conveniently to the next license to be issued.

6. As emphasized in section 4 (above), all license books must be returned at the end of the calendar year. The State Auditor's

Office has mandated that this same requirement is applicable to used (totally empty), partially used or unused Archery/Primitive Firearms and Waterfowl stamp books.

7. In regard to accounting for the sales of various stamps, since only the books are numbered, and not the individual stamps, the Boston F & W office lists the name of the purchaser, number of stamps purchased and the date of purchase on the back cover of the stamp book. When a deposit is made, the notation "Deposited (Date)" is made below the last sale and a cut-off line is drawn. We suggest that you try this system, although you are free to use any system, so long as total accountability is achieved.

NOTE: Any person wishing to make a bulk purchase of stamps MUST be referred to Nancy Limosani at the Boston office. Your allotment is based upon a projection of the number of books needed by the hunter, not the collector.

8. Reciprocal (**F4** and **H3**) Paraplegic licenses are available free of charge for residents of Maine, New Hampshire, Vermont and Connecticut, and may be issued by license agents or by mail through the Boston office.

Once again, if you have questions about license issuance and cannot find the answer in this manual, please phone:

DEFINITIONS

Adults: As of January 01, 1974, all references to the word "adult" found in this manual shall mean any person who has reached the age of 18.

Age: The words, "15 years of age or over" & "over 70" mean a person who has reached his 15th or 70th birthday. A person is under 15 until his 15th birthday and a person is under 70 until his 70th birthday.

Agent/Vendor: Any city or town clerk or any person duly authorized by the Director to issue licenses at their place of business located inside or outside the Commonwealth.

Minor: An applicant who has not reached his 18th birthday.

Non-Resident Alien: A citizen of the United States who has not resided continuously within the Commonwealth of Massachusetts for a period of at least six (6) consecutive months immediately prior to date of application.

Resident Citizen: A citizen of the United States who has resided within the Commonwealth of Massachusetts for at least six (6) consecutive months immediately prior to the date of application. A person may not be a resident of two states simultaneously.

GENERAL AND SPECIFIC INSTRUCTIONS FOR THE ISSUANCE OF SPORTING, HUNTING, FISHING AND TRAPPING LICENSES:

Laws and Policies Regarding the Sale and Issuance of Licenses:

1. No agent shall back-date any licenses.

2. Agents shall issue alien hunting licenses.

3. Agents may request proof of residency (i.e. Driver's License) prior to the issuance of any resident license.

4. Agents are not authorized to issue refunds for licenses without prior approval from the Boston\Westboro office.

5. Agents shall not exchange one class of license for another.

6. Agents shall, on the first Monday of every month, pay to the Director all monies received by them for licenses and stamps issued during the preceding month, except those fees (if any) which they are authorized to retain.

7. Agents shall, within 30 days next succeeding January first in each year, return to the Director all licenses and stamp books received during the year preceding including all stubs, voids, used and unused licenses and stamp books. However, in an effort to reduce mailing costs, Divison personnel or U.P.S. will attempt to pick up all of these records within the first three months of the subsequent calendar year. If unsuccessful, returns will then become the responsibility of the agent.

8. Agents will issue licenses and submit remittances in consecutive license number order.

9. Agents are responsible for collecting the corrects fees for licenses issued. At no time is the agent permitted to change the fee prescribed by law or charge a so-called "handling/processing fee". Fees may not be retained by other authorized agents whose place of business is located within the Commonwealth.

10. At no time is the agent permitted to deviate from the definition established by law applicable to those persons eligible for Class

S3, F4, & H3 (free licenses).

11. A resident citizen is not required to present his or her firearms identification card in order to obtain a hunting or sporting license. The resident citizen who wishes to bow hunt only is not required to have an F.I.D. card for this purpose. The space is on the license for the hunter's convenience. However, it is the responsiblity of any resident citizen who owns or has in his possession any firearms or ammunition for whatever purpose to have a Firearms Identification Card.

12. Agents shall charge a $5.00 fee for the Wildlands Conservation Stamp which is imprinted on the license and check off the "YES" box on all first resident licenses (in their name) and all non-resident licenses.

13. Agents will not accept "Mass. Wildlife" subscriptions or monies in payment thereof. Applicants should be instructed to mail them to: Mass. Wildlife, MDFW Field Headquarters, Westboro, MA 01581.

When License is Needed - Not Needed

A. Necessity for License:

1. It is unlawful at any time or place in this state, for any person 15 years of age or older, to hunt, pursue, or kill with a gun, bow and arrow or other means or device, except to trap, any animal or to angle for fish in any inland waters without having procured a license to do so.

2. It is unlawful at any time or place in this state for any person 12 years of age or older to trap any animal without first having procured a license to do so.

B. License not required:

1. No license is required of a person under 15 years of age to fish in inland waters or for a person between the ages of 12 and 14 inclusive, to hunt, provided, in the case of the latter, that the person is accompanied by a duly licensed adult, and only one weapon shall be used in such hunting, and they shall not exceed the bag limit established for one person. Not more than one such minor shall accompany one adult.

2. No license is required of any legal resident or any member of his immediate family 15 years of age or older to hunt on land owned or leased by him, or for any such resident or any such member of his family to trap on such land, or to fish in inland waters surrounded by such land if he is or they are actually domiciled thereon and such land is used principally for agricultural purposes.

License Forms - Description

(1) There are two separate forms:

Fishing/Trapping licenses are on green pads. The licenses are only two panels long, which means there is no deer tag to remove.

Hunting/Sporting licenses are five panels long and are violet in color this year. The five panels consist of the two which the sales outlets traditionally completed, the deer tag and the two permit applications. You do not need to do anything with panels 3 thru 5 other than to leave them attached and give them to the customer.

There are only two instances which require you to detach the deer tag and permit applications and most of you will never sell licenses in these categories. They are H6 - Non-Resident Citizen/Alien Small Game License and H7- Non-Resident/Alien Commercial Shooting Preserve (3-day) Licenses. When issuing either, **detach and destroy** those panels.

It may seem cumbersome dealing with two forms instead of one, but sales agents will find it convenient to not detach tags, and the color coding is a major benefit for law enforcement personnel.

(2) Permit application tags are attached to the hunting/sporting license:

Application forms for the 1994 antlerless deer permit and the 1994 turkey hunting permit are attached to the hunting/sporting license. This is a convenience to the sportsman who receives everything at once when he or she buys a license. It also eliminates impatient customers at your store or office who want to know when these items will be available.

(3) The duplicate form is a separate slip which contains complete information and can be honored at any sales outlet.

The 1994 duplicate tag on both license forms contains all the personal information found on the first panel of part one.

Filling out the duplicate slip entails no extra effort as the information will pass through to the second part of the license form via the attached carbon. When a license is purchased, tear off the first onion skin copy (part 2) and give it to the purchaser. This is the duplicate slip.

If a sportsman comes in with a duplicate slip and an affidavit affirming how he/she lost the license, all of the information you need will already be there. There will be no need to verify the information on the license and no need for the sportsman to return to the original point of purchase. You should, however, confirm the applicant's identification (driver's license or license to carry a handgun) prior to issuing the duplicate license.

Please honor requests for replacement licenses as they come in.

You will find this service much appreciated by those who need to use it. However, if the purchaser does not have the duplicate slip, he must return to the original point of purchase or contact this office.

(4) The license forms each consist of four parts.

(1) The license
(2) The duplicate form (onion skin)
(3) The clerk's copy (onion skin)
(4) The remittance copy

When you write you are making four copies - Please use a hard surface, a ball point pen and BEAR DOWN HARD.

Issuing Licenses

PLEASE NOTE: Under Chapter 131, section 12, M.G.L., all city and town clerks are REQUIRED to sell fishing, trapping, hunting and sporting licenses and stamps during normal business hours.

A. Steps in Issuing:
1. Be sure you are using the correct license form.

2. Make sure that you print plainly using a clear-writing ball point pen and that sufficient pressure is used so that the carbon copies will be legible.

3. Fill in all the information requested including the full name, complete **residential** address, sex, citizenship, date of birth, birthplace, color of eyes, color of hair, weight, height, date and time issued, and check the appropriate license type box on panel 1. Under no circumstances should an agent predate or post date a license. The licensee shall fill in the "fee paid" for the license in the box provided and sign. Phone number is voluntary and only indicates licensee is willing to participate in a Division phone

survey; the number is not for public disclosure.

4. The license class must be written in the license class block on the license by the clerk. Use the alpha-numeric code for each license class such as: F1, S2 etc. The license class blocks and fee block on the license have a special mask to detect any attempt to alter.

   Write clearly and do not attempt to erase - this will VOID the license.

5. Licenses may be purchased in person, by mail, or by a designee of the applicant in which case the license is not valid until signed by the licensee. Agents may issue the license without the fee block and signature filled in, but should advise the designee that this must be signed to validate the license. The license should be signed only by the licensee.

6. License also must be signed by the agent or authorized person issuing the license.

7. Be sure to check the Wildlands Conservation Stamp "YES" box and charge $5.00 fee on all first resident licenses issued in any person's name for that year (excepting free or duplicate licenses) and all non-resident licenses.

8. Upon recording license information in full, the agent must detach the license and attached tags (if applicable) from the book. Except in the case of H6 or H7 non-resident licenses - in which you destroy panels 3 - 5 and give remainder to the licensee or his designee. Part 2 (duplicate slip - onion skin) should also be detached and given to the licensee or his designee. Part 3 (vendor record - onion skin) shall remain permanently in the book and will serve as the agent's record of issuance until returned to the Division at the end of the calendar year. Part 4 (remittance copy) shall be turned in with the monthly report.

9. If a mistake of any kind is made in filling out the license, it must be VOIDED. No erasures of any kind are permitted. (See voids).

B. Miscellaneous Issuing Instructions

1. License Agent's Record of Licenses Issued: This must be retained until returned to the Division the next January so that agents may verify any discrepency in remittances and to fill requests for duplicate licenses in cases where the licensee has lost the license and duplicate slip. (See "Duplicate licenses").

2. Retention of fees: Under Chapter 131, section 17, M.G.L., city and town clerks are authorized by law to retain a fee of fifty cents ($.50) for the issuance of all licenses except Wildlands Conservation Stamps and free or duplicate licenses. Clerks may retain a fee of ten cents ($.10) for each Archery/Primitive Fireearms Stamp sold and twenty five cents ($.25) for each Mass. Waterfowl Stamp sold. Other license agents whose place of business is located within the Commonwealth, are not authorized to retain fees, nor are any agents authorized to charge a so-called "Handling/ Processing" fee.

3. Duplicate licenses: Advise the licensee to retain the duplicate slip and keep it in a safe place, not in with the license. The licensee should provide this slip to any authorized agent in order to obtain a duplicate license for a fee of $2.00. If he/she does not have the duplicate slip, he/she may present the original license number to the agent where the original license was obtained, or contact this office. All applications for a duplicate license must be accompanied by an affidavit explaining the circumstances of said loss. **DO NOT CHARGE THE $5.00 FEE** for the Wildlands Conservation Stamp. (see "Specific Instructions) for the issuance of duplicate licenses).

4. Voids: If a license is torn from a book and subsequently voided, a written statement must be made on the back of the original

copy of the license giving the reason for the void. You must return this with your monthly remittance to avoid being charged for it. All explanations must be written clearly. If a mistake of any kind is made in filling out the license, it must be voided. The words *"Voided - error"* must be written across the face of the original and appear in clear carbon on the copies. No erasures of any kind are permitted. Whenever it is necessary to void a license, return the voided original and remittance copy with the corresponding monthly remittance and list the respective number of the voided license on the designated line on the remittance sheet. (See "Monthly remittances").

5. Visible Display of License: As required by our rules and regulations, licenses must be worn in a visible manner on outer clothing whenever fishing, hunting or trapping. Please instruct each license buyer regarding this requirement.

6. Free Licenses: There are three classes of free licenses: Class S3 (Sporting - includes trapping) for resident citizens over 70 years of age; Class F4 (fishing) for resident citizen paraplegics, blind mentally retarded or over 70; and Class H3 (hunting) for resident citizen paraplegics. DO NOT CHARGE $5.00 fee for Wildlands Conservation Stamp. (See "Specific Instructions") regarding the qualifications for obtaining these licenses.

7. Sporting Licenses: It is the policy of the Division that a person who buys a fishing or hunting license cannot return such license and apply it as credit toward the purchase of the Sporting license (which permits both hunting & fishing). Also, the holder of a Class S3 (Resident Citizen sporting over 70) should be informed that his license also permits trapping. No other sporting license permits trapping.

8. Resident Citizen Minors: Resident citizen minors under the age of 15 cannot obtain a fishing (Class F1 or F2), hunting (Class H1) or

sporting (Class S1) license, nor can a minor under 12 obtain a trapping (Class T2) license. Every application for a hunting or sporting license from a resident citizen minor, 15 to 17 years, inclusive, or for a trapping license from a resident citizen minor, 12 to 17, inclusive, must be in writing AND be accompanied by the written consent of a parent or guardian, which shall be preserved for one year by the agent or until all materials are returned to the Division at the end of the calendar year.

In addition: every resident citizen minor who applies for a hunting or sporting license must comply with **one** of the following three requirements:

1. A written statement that at all times when hunting or target shooting other than on a duly recognized range, said minor will be accompanied by a person 18 years of age or older; or

2. Evidence that said minor has held a license authorizing him to hunt in this state in a prior year (for 16 or 17 year olds) or;

3. A certificate of competency from a Hunter Education course approved by the Division of Environmental Law Enforcement or an approved certificate from another state issued not more than 3 years prior to his 15th birthday must be shown.

On License book, check block [1], [2] or [3] to indicate under which conditions minor's license was issued.

9. Non-resident Citizen Minor: Non-resident Citizen minors under the age of 15 cannot obtain a fishing, small game hunting, big game hunting, or three-day commercial shooting preserve hunting license. Every application for any of the above-mentioned hunting licenses from non-resident minors, 15 to 17 years, inclusive, must be in writing and accompanied by the written consent of the parent or legal guardian, which shall be preserved for one year or until returned to the Division at the end of the year. Also, each

non-resident citizen minor who applies for a hunting license must comply with one of the three requirements as outlined in item 9.

On License Book: Check block [1], [2] or [3] on license to indicate under which condition minor's license was issued.

10. Non-resident Military Personnel Stationed in Massachusetts: A non-resident person who is on active duty in the Armed Forces of the United States and is stationed in Massachusetts, upon presentation of a **green** active duty I.D. card is entitled to a resident hunting, fishing, sporting or trapping license at the appropriate resident fee. A Red (Reserve/National Guard) or Buff or Blue card (retired) is not acceptable.

11. Alien Licenses: Alien licenses are divided into two categories: resident and non-resident. Resident alien fishing licenses (Class F5) and non-resident alien fishing (Classes F6 & F7) must be procured once the alien reaches the age of 15. Resident alien hunting licenses (Class H4) and non-resident alien hunting licenses (Classes H5, H6 & H7) shall be issued by agents **only** upon presentation of the applicant's alien gun permit. These permits are issued on a calendar year basis and agents must verify that the permit is **current** before issuing the license. A visual check of the permit is required and the gun permit number must be entered in the box labeled "FID/AGP" (Alien Gun Permit #); the gun permit is then returned to the alien. All aliens requesting information should be informed that they must obtain an alien gun permit to possess any firearm prior to being issued an alien hunting license. Permits are available from the Department of Public Safety, Hurley Building, Boston, MA.*

* EXCEPTION: The resident or non-resident alien who wishes to purchase a license for bow hunting purposes only is not required to have a gun permit. However, the wording "FOR BOW HUNTING ONLY" must be printed clearly on the face of the hunting license issued in the area labeled "valid from.....to" as indicated on fig. 5.

PLEASE READ REVERSE SIDE BEFORE COMPLETING APPLICATION.

12. Abstracts of the Fish & Wildlife Laws: The 1994 Abstracts offer larger type size and greater readability than in previous years. They include the map of the antlerless deer zones needed to accompany the antlerless deer permit application. They include the map of Environmental Law Enforcement districts and contact points for each district. They also contain information about the State's Freshwater Sportfishing Awards Program. The agent shall issue with each license purchased, one and only one copy of the current Abstracts, a sufficient supply of which has been furnished.

13. Trapping Licenses: Trapping licenses (classes T1, T2 & T3) shall be issued only to resident citizens. Resident aliens do not qualify for a trapping license; they must secure their final naturalization papers in order to become eligible to trap. Non-resident citizens shall be issued a trapping license (Class T4) by Fisheries & Wildlife offices only. Non-resident aliens are not eligible for a trapping license until they have secured their final naturalization papers and then they are eligible for a class T4 non-resident citizen trapping license issued by DFW offices only.

14. Special price licenses: Special price licenses include: Classes F3 (fishing) for resident citizens, age 65 - 69; H2 (hunting) for resident citizens, age 65 - 69; S2 (sporting) for resident citizens, age 65 - 69; and T3 (trapping) for resident citizens age 65 - 69. Applicant must have reached his 65th birthday to qualify.

15. Issuance of following-year licenses in November and December: Licenses may be sold during the months of November and December for the following year; however, monthly remittances for November and December "must be computed and submitted separately from those of the year following - this includes the sale of stamps also". Please submit remittances on SEPARATE remittance forms.

IN THE EVENT NO SALES ARE MADE DURING THE MONTH, AGENTS **MUST** SUBMIT MONTHLY REMITTANCE FORMS (IN DUPLICATE) WITH THIS FACT INDICATED.

In making remittances, city and town clerks will deduct fifty cents ($.50) for each license sold, with the exceptions of duplicates, free licenses and Wildlands Conservation Stamps, ten cents ($.10) for each Archery/Primitive Firearm Stamp sold, and twenty-five cents ($.25) for each Mass. Waterfowl Stamp sold. Other agents whose place of business is located within the Commonwealth are **not** authorized by law to retain fees.

Annual Return of License Books

With reference to returning the stubs and licenses for auditing, we quote here a portion of section 18 of Chapter 131, M.G.L.:

"Each such issuing office shall within thirty days next succeeding January first in each year, return to the Director all license books received during the year preceding, including all stubs and voids and unused licenses."

However, in an effort to reduce mailing costs, Division district personnel or United Parcel Service (UPS) will attempt to pick up these records within the first three months of the subsequent calendar year. If unsuccessful, it will then be the responsibility of the agent to return all used and unused license books and stamp booklets with the licenses at their own cost. (See "Mailing Procedures" for proper method of return).

Payment to the Director

All monies received by the agents for licenses issued during the preceding month, minus the fee retained, if any, shall accompany the

monthly remittance forms. All such remittances shall be by check, US Post Office money order or lawful money of the United States. Checks or money orders should be made payable to the "Commonwealth of Massachusetts". Because of the volume of remittances received monthly, it is preferred that **one** such check or money order be submitted by each issuing agent's office in the total amount of the payment due the Commonwealth.

Mailing Procedures

Postal regulations require that all packages containing written materials (such as remittance forms) be submitted by first-class mail. Therefore, agents are responsible for forwarding monthly remittances to the Division either by first-class mail or outside the mails.

Inspection

License records are the property of the Commonwealth and shall be at all times available for public inspection and shall be subject to audit at all times by the Director, the State Auditor, the Director of Environmental Law Enforcement, or the Comptroller, or by their respective designees.

Check "NO" box.

Class M1 - Archery/Primitive Firearms Stamp - $5.10

To be issued to any resident or non-resident citizen who wishes to participate in the exclusive Archery and/or Primitive Firearms season(s) for deer. A hunting license is required also. A non-resident citizen or non-resident alien would be required to procure a big-game hunting license (Class H5).

Archery/Primitive Firearms Stamps are **never** to be issued free or at half price regardless of license class.

Applicant should be instructed that this stamp must be adhered to the back of the hunting or sporting license.

This stamp entitles the licensee to hunt deer by bow and arrow during the exclusive archery season, primitive firearms season, or the shotgun season on deer in accordance with the seasons and regulations established by law.

Class M2 - Massachusetts Waterfowl Stamps - $5.00

To be issued to any resident citizen/alien who intends to hunt waterfowl. A hunting license and Federal Waterfowl Stamp (available at U.S. Post Offices) are also required.

Waterfowl stamps are **never** to be issued free or at half price regardless of license class.

This stamp entitles the licensee to hunt waterfowl in accordance with the seasons and regulations established by law.

Applicant should be instructed that he must sign his name across the face of this stamp and adhere it to the rear of his license.

Class W1 - Resident Wildlands Conservation Stamp - $5.00

To be issued to any resident citizen/alien who intends to hunt, fish or trap.

This stamp is not required in order to obtain F4, H3 or S3 (FREE) licenses. However, it is required for half-price licenses at the full $5.00 fee to any person entitled to a half-price license for the **first** license issued in that person's name for the current year. Check "YES" box on front of license. Each license comes with an imprint of

the actual stamp on the rear of the first panel.

Class W2 - Non-Resident Wildlands Conservation Stamp - $5.00

To be issued to any non-resident citizen/alien who intends to hunt, fish or trap. This stamp is required for **all** non-resident license purchases within a given calendar year. Check "YES" box on front of license. Each license comes with an imprint of the actual stamp on the rear of the first panel.

Class W3 - Wildlands Conservation Stamp - Collector's Edition - $5.00

An actual stamp with new graphics is available for sale every year for anyone interested in purchasing it for the purpose of contributing to the Wildland Conservation Fund or stamp collecting AT DIVISION OFFICES ONLY (not hatcheries) for the $5.00 fee.

Antlerless Deer Permit Applications

Antlerless Deer Permit Applications are incorporated as part of the five (5) panel hunting or sporting license form (panel 4).
PLEASE NOTE: Panels 3, 4 & 5 are to be issued **only** with Classes H1, H2, H3, H4,H5, S1, S2 & S3.

Sportsmen should be advised that ONLY ONE application may be submitted by each applicant.

THANK YOU !

WHAT IF .....?

What if I run out of abstracts?

There are times when even the most careful clerk runs out of abstracts during the year. Although we ask you to be sure that each license and/or stamp buyer receives one and only one copy of the current Abstracts of the Fish & Wildlife Laws of Massachusetts, we understand that you will get requests from sportsmen who have lost their copies and perhaps get requests from people who do not even make a purchase. We have planned for this sort of contingency by ordering more abstracts than the number of licenses and stamps we have printed. We still want you to only give one copy per recipient, but we don't want you to refuse to give anyone a copy. Please bear in mind that ***we still have a very limited supply of extras.***

Below you will find information regarding the State's five (5) Wildlife Management Districts. If you run out of abstracts, simply phone the District Office for your area (one of the maps in the abstracts will help you to determine under which one's jurisdiction you fall) and request more abstracts. You will probably receive 25 to 50 more abstracts depending on the volume of licenses and stamps you sell. District personnel will either mail or deliver some at their earliest opportunity.
